EXAMINER

QUARTERMAN, KEVIN J

ART UNIT PAPER NUMBER

2889 DATE MAILED: 10/01/2008

Γ	APPLICATION NO.	FILING DATE	FIRST NAMED INVENTOR	ATTORNEY DOCKET NO.	CONFIRMATION NO.
Ī	10/571,293	03/09/2006	Yasuharu Negi	127273	6265

TITLE OF INVENTION: ELECTRON TUBE WITH ELECTRON-BOMBARDED SEMICONDUCTOR DEVICE

APPLN. TYPE	SMALL ENTITY	ISSUE FEE DUE	PUBLICATION FEE DUE	PREV. PAID ISSUE FEE	TOTAL FEE(S) DUE	DATE DUE
nonprovisional	NO	\$1440	\$300	\$0	\$1740	01/02/2009

THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. <u>PROSECUTION ON THE MERITS IS CLOSED</u>. THIS NOTICE OF ALLOWANCE IS NOT A GRANT OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. THIS STATUTORY PERIOD CANNOT BE EXTENDED. SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

If the SMALL ENTITY is shown as NO:

A. Pay TOTAL FEE(S) DUE shown above, or

B. If applicant claimed SMALL ENTITY status before, or is now claiming SMALL ENTITY status, check box 5a on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and I/2 the ISSUE FFE shown above.

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

IMPORTANT REMINDER: Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.

PART B - FEE(S) TRANSMITTAL

Complete and send this form, together with applicable fee(s), to: Mail Mail Stop ISSUE FEE Commissioner for Patents P.O. Box 1450 Alexandria, Virginia 22313-1450

or Fax (571)-273-2885

INSTRUCTIONS: This form should be used for transmitting the ISSUE DEE and DURI ICATION DEE (if required). Blocks 1 through 5 should be completed where

appropriate. All further indicated unless corrects maintenance fee notifica	correspondence including ed below or directed of tions.	ng the Patent, advance on nerwise in Block 1, by (rders and notification of r a) specifying a new corre	naintenance fees v spondence address	vill be ; and/o	mailed to the current r (b) indicating a sepa	correspondence address as trate "FEE ADDRESS" for	
CURRENT CORRESPONDENCE ADDRESS (Note: Use Block 1 for any change of address)				Note: A certificate of mailing can only be used for domestic mailings of the Fee(s) Transmittal. This certificate cannot be used for any other accompanying papers. Each additional paper, such as an assignment or formal drawing, muchave its own certificate of mailing or transmission.

DATE MAILED: 10/01/2008

Determination of Patent Term Adjustment under 35 U.S.C. 154 (b)

(application filed on or after May 29, 2000)

The Patent Term Adjustment to date is 292 day(s). If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the Patent Term Adjustment will be 292 day(s).

If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date that determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) WEB site (http://pair.uspto.gov).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at 1-(888)-786-0101 or (571)-272-4200.

Notice of Allowability

Application No.	Applicant(s)	
10/571,293	NEGI ET AL.	
Examiner	Art Unit	
Kevin Quarterman	2889	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address-All claims being allowable, PROSECUTION ON THE MERITS IS (OR REMAINS) CLOSED in this application. If not included herewith (or previously mailed), a Notice of Allowance (PTOL-85) or other appropriate communication will be mailed in due course. THIS NOTICE OF ALLOWABILITY IS NOT A GRANT OF PATENT RIGHTS. This application is subject to withdrawal from issue at the initiative of the Office or upon petition by the applicant. See 37 CFR 1.313 and MPEP 1308.

- 1. This communication is responsive to 15 August 2008.
- The allowed claim(s) is/are 1-19.
- 3. Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
 - a) ☑ All b) ☐ Some* c) ☐ None of the:
 - 1. T Certified copies of the priority documents have been received.
 - 2. Certified copies of the priority documents have been received in Application No. _____
 - Copies of the certified copies of the priority documents have been received in this national stage application from the International Bureau (PCT Rule 17.2(a)).
 - * Certified copies not received: _____.

Applicant has THREE MONTHS FROM THE "MAILING DATE" of this communication to file a reply complying with the requirements noted below. Failure to timely comply will result in ABANDONMENT of this application.
THIS THREE-MONTH PERIOD IS NOT EXTENDABLE.

- A SUBSTITUTE OATH OR DECLARATION must be submitted. Note the attached EXAMINER'S AMENDMENT or NOTICE OF INFORMAL PATENT APPLICATION (PTO-152) which gives reason(s) why the oath or declaration is deficient.
- CORRECTED DRAWINGS (as "replacement sheets") must be submitted.
 - (a) \square including changes required by the Notice of Draftsperson's Patent Drawing Review (PTO-948) attached
 - 1) Thereto or 2) to Paper No./Mail Date
 - (b) ☐ including changes required by the attached Examiner's Amendment / Comment or in the Office action of Paper No./Mail Date _____.

Identifying indicia such as the application number (see 37 CFR 1.84(c)) should be written on the drawings in the front (not the back) of each sheet. Replacement sheet(s) should be labeled as such in the header according to 37 CFR 1.121(d).

 DEPOSIT OF and/or INFORMATION about the deposit of BIOLOGICAL MATERIAL must be submitted. Note the attached Examiner's comment regarding REQUIREMENT FOR THE DEPOSIT OF BIOLOGICAL MATERIAL.

Attachment(s)

- 1. Notice of References Cited (PTO-892)
- 2.
 Notice of Draftperson's Patent Drawing Review (PTO-948)
- Information Disclosure Statements (PTO/SB/08), Paper No./Mail Date 0508; 0908
- Examiner's Comment Regarding Requirement for Deposit of Biological Material
- 5. Notice of Informal Patent Application
- Interview Summary (PTO-413), Paper No./Mail Date
- 7. Examiner's Amendment/Comment
- 8. X Examiner's Statement of Reasons for Allowance
- Other _____.

Art Unit: 2889

DETAILED ACTION

Response to Amendment

 Applicant's amendment and remarks received 15 August 2008 have been entered and overcome the objection to the title and the claim objections recited in the previous office action.

Allowable Subject Matter

- 2 Claims 1-19 are allowed
- 3. The following is an examiner's statement of reasons for allowance: Regarding independent claim 1, the prior art of record neither shows or suggests an electron tube comprising, in addition to other limitations of the claim, a first tubular wall positioned between a central position and an outer periphery of a fixing plate, the first tubular wall surrounding a semiconductor device and extending toward a photocathode, and a cover which is disposed at a position between the semiconductor device and the photocathode, the cover being surrounded by the first tubular wall.
- 4. The closest prior art of Helvy (US 4,855,642) to independent claim 1 teaches, in the sole figure, an electron tube comprising an envelope (12) formed with a photocathode (16) at a predetermined part of the internal surface thereof; a fixing plate (24) which is disposed in the envelope and which has a central position and an outer periphery surrounding the central position; a first tubular wall (46) which is fixed to a position between the central position and the outer periphery of the fixing plate, the first tubular wall extending toward the photocathode; and an evaporation source (42) generating metal vapor, the evaporation source being disposed inside the envelope on

Page 3

Application/Control Number: 10/571,293

Art Unit: 2889

the photocathode side relative to the fixing plate and being disposed at a position between the first tubular wall and an imaginary-extended-curved-surface of the outer periphery of the fixing plate that extends toward the photocathode. However, Helvy fails to exemplify an electron-bombarded semiconductor device fixed to a central portion of the fixing plate, the first tubular wall surrounding a semiconductor device and extending toward a photocathode, and a cover which is disposed at a position between the semiconductor device and the photocathode, the cover being surrounded by the first tubular wall, as recited in independent claim 1. Due to their dependencies upon independent claim 1, claims 2-6 and 13-15 are also allowable.

- 5. Regarding independent claim 7, the prior art of record neither shows or suggests an electron tube comprising, in addition to other limitations of the claim, a first tubular wall which surrounds a semiconductor device, and a cover which is disposed at a position between the semiconductor device and the photocathode, the cover being surrounded by the first tubular wall.
- 6. The closest prior art of Helvy (US 4,855,642) to independent claim 7 teaches, in the sole figure, an electron tube comprising an envelope (12) formed with a photocathode (16) at a predetermined part of the internal surface thereof; a first tubular wall (46); an evaporation source (42) that generates metal vapor, the evaporation source being disposed within the envelope and outside the first tubular wall; and a second tubular wall which surrounds the evaporation source. However, Helvy fails to exemplify a first tubular wall which surrounds a semiconductor device, and a cover which is disposed at a position between the semiconductor device and the

Art Unit: 2889

photocathode, the cover being surrounded by the first tubular wall, as recited in independent claim 7. Due to their dependencies upon independent claim 7, claims 8-12 and 17-18 are also allowable.

- 7. Regarding independent claim 16, the prior art of record neither shows or suggests an electron tube comprising, in addition to other limitations of the claim, a first tubular wall positioned between a central position and an outer periphery of a fixing plate, the first tubular wall surrounding a semiconductor device and extending toward a photocathode, and a covering member that is located between the fixing plate and the photocathode and that covers at least a part of the fixing plate where the fixing plate holds the electrode, the covering member exposing an evaporation source to the photocathode.
- 8. The closest prior art of Helvy (US 4,855,642) to independent claim 16 teaches, in the sole figure, an electron tube comprising an envelope (12) formed with a photocathode (16) at a predetermined part of the internal surface thereof; a fixing plate (24) which is disposed in the envelope and which has a central position and an outer periphery surrounding the central position; a first tubular wall (46) which is fixed to a position between the central position and the outer periphery of the fixing plate, the first tubular wall extending toward the photocathode; and an evaporation source (42) generating metal vapor, the evaporation source being disposed inside the envelope on the photocathode side relative to the fixing plate and being disposed at a position between the first tubular wall and an imaginary-extended-curved-surface of the outer periphery of the fixing plate that extends toward the photocathode. However, Helvy fails

Page 5

Application/Control Number: 10/571,293

Art Unit: 2889

to exemplify an electron-bombarded semiconductor device fixed to a central portion of the fixing plate, the first tubular wall surrounding a semiconductor device and extending toward a photocathode, and a covering member that is located between the fixing plate and the photocathode and that covers at least a part of the fixing plate where the fixing plate holds the electrode, the covering member exposing an evaporation source to the photocathode, as recited in independent claim 16.

- 9. Regarding independent claim 19, the prior art of record neither shows or suggests an electron tube comprising, in addition to other limitations of the claim, a first tubular wall which surrounds a semiconductor device, and a covering member that is located between the fixing plate and the photocathode and that covers at least a part of the fixing plate where the fixing plate holds the electrode, the covering member exposing an evaporation source to the photocathode.
- 10. The closest prior art of Helvy (US 4,855,642) to independent claim 19 teaches, in the sole figure, an electron tube comprising an envelope (12) formed with a photocathode (16) at a predetermined part of the internal surface thereof; a first tubular wall (46); an evaporation source (42) that generates metal vapor, the evaporation source being disposed within the envelope and outside the first tubular wall; and a second tubular wall which surrounds the evaporation source. However, Helvy fails to exemplify a first tubular wall which surrounds a semiconductor device, and a covering member that is located between the fixing plate and the photocathode and that covers at least a part of the fixing plate where the fixing plate holds the electrode, the covering

Art Unit: 2889

member exposing an evaporation source to the photocathode, as recited in independent claim 19.

- 11. The subject first tubular wall and covering member described earlier are provided for preventing metal vapor from depositing on the avalanche photodiode and on unwanted portions inside the electron tube during the formation of the photoelectric surface. The design is new and unique to the art.
- 12. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2889

Contact Information

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin Quarterman whose telephone number is (571)272-2461. The examiner can normally be reached on M-TH (7-5:30).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Minh-Toan Ton can be reached on (571) 272-2303. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
